

He's Not There

Johan

Well it's was kind of windy, suddenly appeared, this
guy he was the very spin of me
Got it all, it's all I ever wanted to be
Now don't you worry sick, I'm on a hurry just do some
things for me and I would
Cause after all it was all I ever wanted to be

And you can be like me if you just do what I tell you
And I will set you free, that's what he told me, right
before he left off

It's getting out of hand, I thought he was a friend
He's gone and they all mistake me for him
And you were wrong, another man you're searching for
Now I was wanted for crimes he had committed
Before I knew it, they got me locked up
Another one, another million searching for

And you can count on me when you think you have to run
And you can lean on me that's what he told me
Now he's gone, there's something wrong
He was gone, just way out of sight
We will know tonight

And you can count on me when you think you've had too
much
And you can lean on me, that's what he told me
Now he's gone, he is gone, there's something wrong
He is just way out of sight, we will know tonight
He is gone, something's wrong, he was just way out of
sight
He was taken a ride
He was gone, he was way out of sight
He was gone, he was gone, he was gone
