

Maria

Johan

I know there's a good chance you are leaving
Nothing but confusion in your eyes
Years of madness, of trying to find out what we got
All those year came at a price

Did you ever see the fire burning
Only it was way out of control
And did you notice all the crazy things I do
Try to make you go away?

Oh Maria colours fading from the sky
no time to lose now
Oh Maria nothing's final 'till we die
let's try somehow

Never did I dream of someone like you
I'd already settled for much less
There's no answers to the questions that you have
Can't you just forget about the past?

Oh Maria colours fading from the sky
no time to lose now
Oh Maria nothing's final 'till we die
let's try somehow

In the morning when I wake
Listen to the sounds you make
I could have sworn I heard his name
You say, tired and confused
you can't take more of this abuse
it seems you played me for a fool, again

Oh Maria nothing's final 'till we die
let's try somehow
