

Blue Lights And Bubbles

John Anderson

Blue lights and bubbles, oh, help me with my troubles
I've been having one of my heart attacks, baby, from the things
you do
No doctor or healer could cure this hurtin' fever
I need blue lights and bubbles to get me over you

I need blue lights and bubbles, yes I'll take a double
Anything that's sparkling warm or a big ol' bubbling brew
Keep them neon lights a-burnin' and that country music turnin'
I need blue lights and bubbles to get me over you

I never saw the danger of you cheatin' with a stranger
Girl, you hand me a dream and baby just had a dreamin' fool
From your love and affection, I need a resurrection
I need blue lights and bubbles to get me over you

I need blue lights and bubbles, yes I'll take a double
Anything that's sparkling warm or a big ol' bubbling brew
Keep them neon lights a-burnin' and that country music turnin'
I need blue lights and bubbles to get me over you
Hey, I need blue lights and bubbles to get me over you
