

Chasing Down a Dream

John Anderson

In a dream last night, I saw her
She was dancin' on the water
And when I went to touch her
She disappeared down under

Then I went off the deep end
Thinkin' I could find her
I slept away the weekend
Always one step behind her

What makes a man keep chasin' down a dream?
Try to understand, it ain't crazy as it seems

'Cause when I woke up this mornin'
She was layin' right there sleepin'
So don't you miss your callin'
You got to keep believin'

What makes a man keep chasin' down a dream?
You got to try to understand, it ain't crazy as it seems

In a dream last night, I saw her
She was dancin' on the water
Some men search forever
I'm glad I finally caught her

Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
Dream, dream, dream
