

# Maybe Go Down

John Anderson

Big city, got me busy all week long  
Every night you're sound asleep by the time I get home  
Gotta slow down, I've been going way too fast  
I think it's time that you and I retrace our loving past

And maybe go down that old highway  
Maybe find that old motel where we used to stay  
And maybe get high on sweet red wine  
Maybe rediscover a feelin' that we had one time

I'm recalling, early morning, no alarm  
Lying in the bed for hours in each others arms  
Come on honey, can't you see it, just me and you  
Let's run away like two young lovers, there's lots that we can do

Maybe go down that old highway  
Maybe find that old motel where we used to stay  
And maybe get high on sweet red wine  
Maybe rediscover a feelin' that we had one time  
And maybe recapture a feelin' that we had one time

Maybe go down that old highway  
Maybe find that old motel where we used to stay  
And maybe get high on sweet red wine  
Maybe rediscover a feelin' that we left behind

Yeah, maybe go down that old highway  
Maybe find that old motel where we used to stay  
And maybe get high...
