

One Shot Deal

John Anderson

The way you talked you know I thought
That my loving might have meant something to you, baby
Hey, hey baby

The way you moan when we're alone
I thought you loved me, won't you tell me what's going on, baby
Hey, hey baby

You got a hold of my soul
I can't help it if I lose control
Just think about the way that I feel
Was it just a one shot deal

The way you kiss my lips
You know I couldn't resist and now I'm just missing you, baby
Hey, hey baby

Is something wrong, it's been so long
Tell me why won't answer your telephone, baby
Hey, hey baby

You got my heart in your hands
Oh honey, don't you understand
I was looking for a love that's real
And not just another one shot deal

You got a hold of my soul
I can't help it if I lose control
But think about the way that I feel
Now was it just a one shot deal
