

You Ain't Hurt Nothin' Yet

John Anderson

You think your hurt'in
Dont make me laugh
It's a achin'
Make a mole hill out of that
You aint got no problems
Your just a little depressed

Fractured bones
Skins and scrapes
They heal over
They go away
Your gonna feel it
When you got as bad as it gets
Untill your hearts been broken
You aint hurt nothing yet

You've got a fever
Of 102
Self-diagnosis
A bad case of the blues
Hurting for money
And down to buyin food with the rent

Someone said something
That wasnt nice
They hurt your feelings
So go ahead and cry
It dont amount to nothing
It's something you forgive and forget
Untill your hearts been broken
You aint hurt nothin' yet

You will recover
You ain't lost it all
Your baby's still lovin you
She's still answers everytime you call
You can imagine what im goin through
And i hope you never do

You will recover
You ain't lost it all
Your baby's still lovin you
She's still answers everytime you call
You can imagine what i'm goin through

Fractured bones
Skins and scrapes
Well they heal over
They go away
Your gonna feel it
When you got as bad as it gets
Untill your hearts been broken
You ain't hurt nothin' yet

Untill your hearts been broken
You ain't hurt nothin'
Ain't hurt nothin' yet
