## **Boardwalk Angel**

## John Cafferty & the Beaver Brown Band

Little girl, tonight baby don't be blue
Dig those pretty lights along the avenue
You're out there on your own
Spending all your time alone
So come on girl, tonight I want to be with you

The world has let you down and it broke your heart But tonight's the night for a brand new start We'll leave the world behind We'll go walking on down the line Come on girl, let's make our dream come true

Meet me out on the boardwalk tonight
Meet me down by the sea
We can dance in the carnival lights
On the shores of Jersey
We'll fall in love on a carousel
Little boardwalk angel

Boardwalk angel, boardwalk angel Boardwalk angel I want you to stay by me You're my boardwalk angel
