

Penetration

John Cafferty & the Beaver Brown Band

Walkin' down the street
New in the big town
Bright lights and promises
Dreams are lost and found

Another face in the crowd
In this sea of desire
But in your heart you know someday
You wanna dance inside that ring of fire

Penetration
Don't you know my heart is aching
Won't you open up your heart
I need a little penetration
Penetration
I need another night's sensation
Won't you open up your heart
I need a little penetration

Almost closing time
Another night behind this bar
Just counting the loose change
Hearing whispers in the dark

I see you sitting all along
Have a last one on me
I sell salvation all night long
And now I need some understanding

Penetration
Don't you know my heart is aching
Won't you open up your heart
I need a little penetration
Penetration
I need another night's sensation
Won't you open up your heart
I need a little penetration
