

Candy Says

John Cale

Candy says

"I've come to hate my body

And all that it requires in this world"

Candy says

"I hate the quiet places

That cause the smallest taste of what will be"

"I'm going to watch the blue birds fly

Over my shoulder

I'm going to watch them pass me by

Maybe when I'm older

What do you think I'd see

If I could walk away from me"
