Captain Hook

I lost my memory today The day my ship set sail Atlantic seas board east To India The seven seas East India Company Pass the Cape of Good Hope But there is still no hope for me I can't keep living like this this no more I can't keep living like this this I can't keep living like this this no more O can't you see You're losing me Again Tried to break India's back But she broke the back of me It was a painful sight At least to me I see the coast is riding out The coast of India supreme Under the seven seas I hear they galloping I can't keep living like this this no more I can't keep living like this this I can't keep living like this this no more O can't you see You're losing me Again By hook or by crook I am the captain of this life By hook or by crook I am the captain of this life By hook or by crook I am the captain of this life By hook or by crook The captain of the light
