

How We See The Light

John Cale

It's a lot like magic
It's a lot like friendship
It's the best of everything
Everything I've found
Sometimes you learn a thing or two
You learn a lesson
Then in the quiet ways of love
You wasted time

You tried to track me down
And now you finally found
The way we heard you
Call me out again

In between the way we see the light
Then we lose our minds and jump a fence
In between the way we see the light
Then we lose our minds and jump a fence

Ooh, ooh, ooh, ooh

Here goes a better idea
In the way we saw our lives
Were they more decisive now
Than in the future time

Can I close another chapter
In the way we run our lives
More decisive in the future
Or deliberate in the end

In between the way we see the light
Then we lose control and jump a fence
In between the way we see the light
Then we lose control and jump a fence

Ooh, ooh, ooh, ooh
