

I KNOW YOU'RE HAPPY

John Cale

I can't be your hero, don't wanna be your fool
Always sympathetic, playing by your rules
I know you're happy when, I know you're happy when, I'm sad
I know you're happy when, I know you're happy when, I'm sad
Always

Will your poison save me, will it burn me down
Will our hearts be transplanted, will you show me how

Congratulations, I know you're satisfied
You've been discovered, since you were on my mind
Always, always, playing by your rules

I know you're happy when, I know you're happy when, I'm sad
I know you're happy when, I know you're happy when, I'm sad

Can you save me, save me, save me

Will your poison save me, will it burn me down
Will our hearts be transplanted, will you show me how
Will your poison save me, will it burn me down
Will our hearts be transplanted, will you show me how

Will you show me how, will you show me how
