

# NIGHT CRAWLING

John Cale

Help me (Me)  
To help you (You)  
To figure things out

Anyone  
Can play the game  
Odds are we'll carry on

I can't even tell when you're putting me on  
We've played that game before (We've played that game)  
I can't even tell when you're putting me on (I can't even tell)  
We've played that game before (We've played that game)

You asked me to say  
How our lives would be different today  
Think about the way you feel  
And the way you live today

I can't even tell when you're putting me on  
We've played that game before (We've played that game)  
I can't even tell when you're putting me on (I can't even tell)  
We've played that game before (We've played that game)

I can't even tell when you're putting me on  
We've played that game before (We've played that game)  
I can't even tell when you're putting me on (I can't even tell)  
We've played that game before (We've played that game)

I can't even tell when you're putting me on  
We've played that game before (We've played that game)  
I can't even tell when you're putting me on (I can't even tell)  
We've played that game before (We've played that game)  
We've played that game before (We've played that game)  
Yes, we played that game before (We've played that game)
