

Blue Highway

John Conlee

Another highway, another heartache
Travelin' man routine
Eight days from home and all alone
In this whining time machine
I spend a mile thinkin' 'bout you
Only to praise the blues
My eyes are sad on the road ahead
While my heart's at home with you

On this blue highway
Between your love and me
Nothin' but a blue highway
As far as my heart can see

Another evening, one more motel
I phone to tell you good night
Not much to say, but it's ok
'Cause your voice will hold me tight

On this blue highway
Between your love and me
Nothin' but a blue highway
As far as my heart can see

I know you're worried 'bout my night life
Wanderin' coast to coast
But time and time I leave behind
The one I love the most

On this blue highway
Between your love and me
Nothin' but a blue highway
As far as my heart can see

Between your love and me
Nothin' but a blue highway
As far as my heart can see
