

Forever

John Conlee

You never know till it happens to you
What really needin' someone can do
You're never sure till it takes you by storm
When a dream slips from your mind and into your arms

This feeling's so strong, I just can't go wrong
You ask me how long will I love you?
Forever and ever, forever
Forever and ever, forever

Sometimes it's hard to believe what you feel
Imagination, it's so warm and real
But time can't lie and it cannot deceive
The more that I hold you, the more I believe

This feeling's so strong, I just can't go wrong
You ask me how long will I love you?
Forever and ever, forever
Forever and ever, forever

Forever and ever, forever
