

## Friday Night Blues

John Conlee

He's been working all week he's got mental fatigue and that old  
couch sure looks fine  
All week he's been gone she's been sitting alone slowly going o  
ut of her mind  
As he kicks off his shoes for the six o'clock news she's gettin  
g all prettied up  
While she's wanting to boogie he wants to lay there she's got t  
he Friday night blues

Oh, those Friday night blues they get in your shoes and they wo  
rk to get you down  
Aw, and there ain't a lady that I ever knew who didn't need her  
a night on the town  
But the hills and the bills and a week full of deals has got hi  
m feeling used  
While he's kicking his shoes off she's putting hers on 'cause s  
he's got the Friday night blues

Oh, there once was a time she was top of the line her nights li  
ke teenage dreams  
Now it's operas at noon, dancin' round with her broom talkin' t  
o the washing machine  
Oh, the girl down the street says her old man is neat and makes  
it sound so true  
Now she's feeling lonely thinks she's the only one with the Fri  
day night blues

Oh, those Friday night blues they get in your shoes and they wo  
rk to get you down  
Aw, but there ain't a lady that I ever knew who didn't need her  
a night on the town  
But the hills and the bills and a week full of deals has got hi  
m feeling used  
While he's kicking his shoes off she's putting hers on 'cause s  
he's got the Friday night blues

Oh, those Friday night blues they get in your shoes and they wo  
rk to get you down  
Aw, but there ain't a lady that I ever knew who didn't need her  
a night on the town
