

## Hold On

John Conlee

Hold on, hold on, hold on tight  
It's gonna be rough  
But it's gonna be alright

When you're little with nothing but love  
To keep you warm when the nights get cold  
It's nice to know your folks are there  
When you need someone to hold

Hold on, hold on, hold on tight  
It's gonna be rough  
But it's gonna be alright

When you're gettin' a little older  
And wearing those hand hand-me-downs  
It's nice to have that shaggy old dog  
At your heels when you turn around

Hold on, hold on, hold on tight  
It's gonna be rough  
But it's gonna be alright

When you meet the woman that loves  
To keep you warm when the nights get cold  
It's nice to know that she's always there  
When you need someone to hold

Hold on, hold on, hold on tight  
It's gonna be rough  
But it's gonna be alright

Hold on, hold on, hold on tight  
It's gonna be rough  
But it's gonna be alright
