

I Can't Stand to Watch My Old Flame Burn

John Conlee

I'm not into going out tonight
Cause lately that honky tonk feeling ain't feeling right
My staying home is best for all concerned
'Cause I can't stand to watch my old flame burn

'Cause I know where she'll be and that's just where I'd go
Cause there's a fire in me that I just can't control
When she lights up the dance floor all the cowboys wait their turn
And I can't stand to watch my old flame burn

I'm better off to stay here by myself
'Cause I'll heat up if I see her with someone else
One cold hard fact of love that I have learned
I can't stand to watch my old flame burn

'Cause I know where she'll be and that's just where I'd go
Cause there's a fire in me that I just can't control
When she lights up the dance floor all the cowboys wait their turn
And I can't stand to watch my old flame burn
No, I don't wanna watch my old flame burn
