

# I'll Be Easy

John Conlee

Sometimes I get so excited about lovin' you  
That it gets hard for me to be easy with you  
You wanna take love slow, look both ways before you go  
And I don't mean to push and shove I just get hungry for your love

But I'll be easy if easy wins your love  
I'll slow down to an easy run  
Just remember when I'm rough on you  
That it ain't easy what I'm going through  
But I'll be easy

So many times when I swore I'd say goodbye  
Just stay away from you and save my pride  
I'd play tough right to the end  
There were wars I didn't win  
But maybe I'll sweep you of your feet  
If you mess up and stumble for me

But I'll be easy if easy wins your love  
I'll slow down to an easy run  
Just remember when I'm rough on you  
That it ain't easy what I'm going through  
But I'll be easy
