

Let's Get Married Again

John Conlee

The evening was perfect, you've made it that way
Could you tell I was happy when you asked me to stay
It's been such a long time since I've been with you
And now that we're together there's only one thing to do

Let's get married again
This time we won't break, we'll bend
Just like a willow that blows in the wind
Let's give us one more try
This time we won't let love die
The way we did then
Darling, let's get married again

We've been legally single for a very long time
But only on paper, not in my mind
And I was hopin' that maybe you felt that way too
Cause no matter who I'm with, I'm alone without you

Let's get married again
This time we won't break, we'll bend
Just like a willow that blows in the wind
Let's give us one more try
This time we won't let love die
The way we did then
Darling, let's get married again
