

# Nothing Changed

John Conlee

Has it been one year or ten?  
Sometimes it all just runs together  
I can tell you're doing well  
Me, I'm ok thinks could be better  
I never thought I'd tell you face to face  
I never let anyone else take your place

Nothing's changed  
So easy to remember the nights we loved  
Nothing has changed  
Every little feeling is in touch with my heart  
At least I've got a memory when the night won't go away  
Love remains, nothing's changed

When I try to say goodbye  
My dreams won't let me sleep without you  
The tears are gone but love lives on  
I still need you like you taught me how to  
If we meet again on the street someday  
And you should ask me how I've been

I'm sure I'll say  
Nothing's changed  
So easy to remember the nights we loved  
Nothing has changed  
Every little feeling is still in touch with my heart  
At least I've got a memory when the night won't go away  
Love remains, nothing's changed

At least I've got a memory when the night won't go away  
Love remains, nothing's changed  
Nothing's changed
