

# Old Fashioned Love

John Conlee

Is staying in love really as hard as it seems?  
I see more and more people splittin' apart at the dreams  
How can two people in love with each other stop so easily  
Whatever happened to what they used to be?

Whatever happened to old fashioned love  
Where people stay with each other  
Because they said that they would need the stars above  
Whatever happened to old fashioned love

And here you are quietly saying goodbye  
And here I sit helplessly wondering why  
And what do we do with these leftover feelings, leftover "I love you"  
And how can you save it forever for someone new

Whatever happened to old fashioned love  
Where people stay with each other  
Because they said that they would need the stars above  
Whatever happened to old fashioned love  
Whatever happened to old fashioned love
