

Peace Within

John Conlee

Well, the road has been rocky, my path has been steep
And the rivers I've crossed were so swift and deep
But somehow the highways have led me to you
And now my direction is true

Peace within, peace within
You are my journey's end
Peace within, peace within
You are my journey's end

Home is the sailor safe from the sea
Home is the drifter so thankfully
Anchored at last under clear skies above
Here in your harbor of love

Peace within, peace within, no more wanderin'
You are my journey's end
Peace within, peace within
You are my journey's end

Peace within, peace within, I'm goin' home
You are my journey's end
Peace within, peace within
You are my journey's end

Peace within, peace within, Jesus loves me
You are my journey's end
Peace within, peace within
You are my journey's end
