

She Woke up Leavin'

John Conlee

I guess last night was the straw that broke the camel's back
A little fight no big deal but one thing lead to another
She brought up something from long ago
So I brought up something new
Didn't make up and make love like we always do

She woke up leavin' today
Wasn't anything I could do or anything I could say
She remembered everything I'd ever done wrong
That's what she's been sleeping on
She woke up leavin'

I woke up just reaching out to an empty bed
I recall the words and aw sorry I've said em
Didn't smell the bacon fry, coffee wasn't on
She hung around just long enough to say I'm gone

She woke up leavin' today
Wasn't anything I could do or anything I could say
She remembered everything I'd ever done wrong
That's what she's been sleeping on
She woke up leavin'

She woke up leavin'
She remembered everything I'd ever done wrong
That's what she's been sleeping on
She woke up leavin'
She woke up leavin'
She woke up leavin'
