

## Two Hearts

John Conlee

Look at us lookin' at [?]  
Saying we can't make it work any more  
Naming things pulling us apart  
Are they things that love can't mend?  
I remember when

Two hearts were all that matters  
Two hearts would be together  
Sometimes till dawn fought through the shades  
Two hearts that made a promise  
Whatever came upon  
We'd never let the magic end  
I know two hearts can love that way again

Touch my lips, see, they're just as warm  
As they were before we entered the storm  
Take my hand, let me pull you close  
We're those same two hearts, you know  
'Cause it's so long ago

Two hearts were all that matters  
Two hearts to be together  
Sometimes till dawn fought through the shades  
Two hearts that made a promise  
Whatever came upon  
We'd never let the magic end  
I know two hearts can love that way again
