

You Never Cross My Mind

John Conlee

I lay there every night where you love me
And I'm used to nights that go by slow
And I wake up every day where you left me
Wandering which way today is gonna go

But you never cross my mind
Though I cry from time to time
No, you never cross my mind
You stay there all the time

From time to time my eyes will find your picture
The one I forgot to put away
Another memory trying to make me miss you
And I find one more reminder every day

But you never cross my mind
Though I cry from time to time
No, you never cross my mind
You stay there all the time

But you never cross my mind
Though I cry from time to time
No, you never cross my mind
You stay there all the time
