

## Beautiful Life

John De Sohn

Almost lost my self, to some bad decisions  
Lay it all on a shelf, waste my ambition  
But in this law of attraction  
What's meant to be will happen  
I promise you one day you'll understand

I know what it feels like  
But you can break free right  
In time you will see, there is a beautiful life  
Like watching the sunrise  
Or sets on those summer nights  
In time you will see there's a beautiful life

In time you will see there's a beautiful life  
In time you will see there's a beautiful life

I feel the weight on my shoulders  
Feeling my heart getting colder  
Trying hard to stay sober, then I drink  
A glass of wine and fine dining  
Can't make up for what's inside me  
That white picket fence ain't for everybody, I know

I know what it feels like  
But you can break free right  
In time you will see, there is a beautiful life  
Like watching the sunrise  
Or sets on those summer nights  
In time you will see there's a beautiful life

In time you will see there's a beautiful life

I know what it feels like  
But you can break free right  
In time you will see, there is a beautiful life  
Like watching the sunrise  
Or sets on those summer nights  
In time you will see there's a beautiful life
