

# Dance Forever

John De Sohn

You  
Thinking love like that was never meant for you  
Yeah you tell yourself there's nothing left to do  
But I wanna change your mind  
Cause you've been let down once or twice  
And I've been there a million times

See  
There's not a single thing you'd have to have for me  
There's nobody that you'd have to try to be  
Cause I'm always on your side  
You've been let down once or twice  
And I've been there a million times

We found something better  
My feeling says now or never  
Our house of revel  
Love on another level  
One look and I just knew  
All that I want is you  
And me here together  
Swear we could dance forever

Swear we could dance forever

You  
Make me feel like I was only made for you  
All the crazy things you make me wanna do  
I can't get it off my mind  
Cause when [?] you with you tonight  
It feels we just come alive

We found something better  
My feeling says now or never  
Our house of revel  
Love on another level  
One look and I just knew  
All that I want is you  
And me here together  
Swear we could dance forever

We found something better  
My feeling says now or never  
Our house of revel  
Love on another level  
One look and I just knew  
All that I want is you  
And me here together  
Swear we could dance forever

We found something better  
My feeling says now or never  
Our house of revel  
Love on another level  
One look and I just knew  
All that I want is you  
And me here together

Swear we could dance forever
