

# Ghost Town

John De Sohn

This city is a ghost town  
When you're not around  
Wanna ride, wanna ride to you

Are you kidding me, kidding me?  
Leaving like that is a statement  
Are you telling me, telling me  
You're keeping that crack in the pavement?

Now I'm stopping on every corner  
Lost on the boulevard  
I should've known it's gon' be killing me

This city is a ghost town  
When you're not around  
Wanna ride, wanna ride to you  
Oh, I been looking through the whole crowd  
In the midnight hour  
Outta sight, outta mind ain't true

God damn, this city is a ghost town  
When you're not around  
Wanna ride, wanna ride to you  
Oh, I been looking through the whole crowd  
In the midnight hour  
Outta sight, outta mind ain't true

Oh, I been running away  
Right down this memory lane  
Like you're haunting me  
God damn, this city is a ghost town  
Ghost town  
Wanna ride, wanna ride to you

Oh, where you been, where you been?  
I'm calling your name on the wrong street  
What's happening, happening?  
You're ripping that rose from the concrete  
Now I'm stopping on every corner  
Lost on the boulevard  
I should've known it's gon' be killing me

This city is a ghost town  
When you're not around  
Wanna ride, wanna ride to you  
Oh, I been looking through the whole crowd  
In the midnight hour  
Outta sight, outta mind ain't true

God damn, this city is a ghost town  
When you're not around  
Wanna ride, wanna ride to you  
Oh, I been looking through the whole crowd  
In the midnight hour  
Outta sight, outta mind ain't true

Oh, I been running away

Right down this memory lane  
Like you're haunting me  
God damn this city is a ghost town  
Ghost town  
Wanna ride, wanna ride to you

God damn, this city is like eeh-eeh-eeh-eh  
God damn, this city is like eeh-eeh-eeh-eh  
God damn, this city is like eeh-eeh-eeh-eh  
This city is a ghost town  
Ghost town
