

Got Damn! (W.O.M.A.N)

John De Sohn

I've been looking for a reason
To walk right over and talk to you, yeah
I can tell that you're a real one
Got everyone in this room watching you

All night I feel like we've been onto something so right
And I don't wanna wait until the sunlight
To find out if you're feeling me too
There's not a lot I won't do
Do with you

Got damn!
That's a W-O-M-A-N
Got damn!
Baby, I can be your biggest fan
I don't care what I gotta do
You know I'll do it all for you
Got damn!
That's a W-O-M-A-N

Best when on your worst behaviour
You got something in the way you move
I know you don't need no saviour, yeah
Got everyone in this room watching you

All night I feel like we've been onto something so right
And I don't wanna wait until the sunlight
To find out if you're feeling me too
There's not a lot I won't do
Do with you

All night I feel like we've been onto something so right
And I don't wanna wait until the sunlight
To find out if you're feeling me too
There's not a lot I won't do
Do with you
