

Long Time

John De Sohn

We could stop
The universe with our heartbeats tonight
Don't let go
We're moving up in the speed of light
I say you
I've been waiting for a long time
Oh, for you
Feels like I've waited for a life time

We could stop
The universe with our heartbeats tonight
Don't let go
We're moving up in the speed of light
I say you
I've been waiting for a long time
Oh, for you
Feels like I've waited for a life time

We could stop
The universe with our heartbeats tonight
Don't let go
We're moving up in the speed of light
I say you
I've been waiting for a long time
Oh, for you
Feels like I've waited for a life time

I say you
Oh, for you

We could stop
The universe with our heartbeats tonight
Don't let go
We're moving up in the speed of light
I say you
I've been waiting for a long time
Oh, for you
Feels like I've waited for a life time
