

# Rush

John De Sohn

I wanna drive fast  
Crash, survive  
I wanna fight red  
I wanna feel alive

Sleep with lions  
Eye to eye  
Chase the violence  
Trip real high

I hear the shots, I hear the sirens  
But I won't taste the ground  
I wanna run, outrun the bullets  
And let the rush run wild

I hear the shots, I hear the sirens  
But I won't taste the ground  
I wanna run, outrun the bullets  
And let the rush run wild

And let the rush run wild  
Let the rush run wild  
And Let the rush run wild  
And let the rush run wild

I wanna get past  
A thousand skies  
I wanna fly high  
I wanna feel alive

Sleep with lions  
Eye to eye  
Chase the violence  
Trip real high

I hear the shots, I hear the sirens  
But I won't taste the ground  
I wanna run, outrun the bullets  
And let the rush run wild

I hear the shots, I hear the sirens  
But I won't taste the ground  
I wanna run, outrun the bullets  
And let the rush run wild

And let the rush run wild  
Let the rush run wild  
And Let the rush run wild  
And let the rush run wild

I hear the shots, I hear the sirens  
But I won't taste the ground  
I wanna run, outrun the bullets  
And let the rush run wild

And let the rush run wild
