

Sally

John De Sohn

Stars above us lied
Lonely in the night
I'm looking for you
I'm looking for you
I wonder where you are
Close to me or far
I'm looking for you
I'm looking for you...

Sally, Sally
Won't you come and hold?
I'm looking for you
Night and day, day
I'm looking for you
Everywhere

Through sun and night an snow
I go where you would go
I'm looking for you
I'm looking for you
I wonder where you'll be
Hope is leaving me
I'm looking for you
I'm looking for you...

Sally, Sally
Won't you come and hold?
I'm looking for you
Night and day, day
I'm looking for you
Everywhere

Oh, Sally, Sally
Won't you come and hold?
I'm looking for you
Night and day, day (day)

Oh, Sally, Sally
Won't you come and hold? (a-a-a-ah)
I'm looking for you
Night and day, day
I'm looking for you
Everywhere (everywhere, everywhere)

Oh, Sally, Sally
Won't you come and hold? (a-a-a-ah)
I'm looking for you
Night and day, day
I'm looking for you
Everywhere (everywhere, everywhere)
