Taking It Back

John De Sohn

This is where it ends
And this is were it all begins
We're rising up again
Allright

We're gonna spread the word
We're gonna make our voices heard
You choose to be alone

We're taking it back tonight
And no one can stop us now
We're taking it back tonight

We're taking it back tonight
And no one can stop us now
We take it
We take it
We take it back tonight

Remember what we where
Shattered across the universe
This used to be our world

We're taking it back tonight
And no one can stop us now
We're taking it back tonight

We're taking it back tonight

We're taking it back tonight
And no one can stop us now
We're taking it back tonight
Tonight
Tonight

We're taking it back tonight
