

Under The Sun (Where We Belong)

John De Sohn

Hey sweet love
Never let them get your voice get tired
Break these walls down
So the whole world can see how you inspire
Hearts run free
Encourage peace
Follow me
It won't be long
'Till we get under the sun where we belong

Under the sun where we belong
Under the sun where we belong

Hey sweet love
Never let them get your voice get tired
Hurt no more
'Cause everyone will stand up and be counted
Hearts run free
Encourage peace
Follow me
It won't be long
'Till we get under the sun where we belong

Under the sun where we belong
Under the sun where we belong
Under the sun where we belong
Under the sun where we belong
Under the sun where we belong
