

# World Game

John Denver

I want to play in the World Game  
I want to make it better it's ever been before  
I want to play in the World Game  
I want to make sure everybody knows the score  
About using less, doing so much more

Everywhere I'm going I see trouble  
Everywhere I'm looking I see all kinds of pain  
Maybe we can get back on the double  
Maybe we can turn around and make it all change  
They say it's you against your neighbor  
If it gets right down to it, you against your friend  
I swear that this is not the answer  
As far as I can see it is the way it all ends

I want to play in the World Game  
I want to make it better it's ever been before  
I want to play in the World Game  
I want to make sure everybody knows the score  
About using less and doing so much more

Hey man, you know me I don't worry  
Hey man, you know me I am never afraid  
Only one thing can make me sorry  
Something to say and then it never gets said  
What kind of man turns on his brother  
What kind of man turns his back on a friend  
Who has the right to say it's over  
Who has the right to see how far it can bend

I want to play in the World Game  
I want to make it better it's ever been before  
I want to play in the World Game  
I want to make sure everybody knows the score  
About using less, doing so much more

Yaweh yaweh yaweh jah  
Yaweh yaweh yaweh jah  
Yaweh yaweh yaweh jah  
Yaweh yaweh yaweh jah

You and me you and me  
You and me you and me

I and I - I and I  
I and I - I and I

I want to play in the World Game  
I want to make it better it's ever been before  
I want to play in the World Game  
I want to make sure everybody knows the score  
About using less, doing so much more
