

# I'm The One Who Loves You

John Farnham

I'm the one who loves you  
I'm the one who loves you  
who loves you

Oh my darlin' now don't be blue  
Another guy has gone and left you  
Come back to me, I'm your best friend  
To tell another tragic story again  
And one more time you look into my eyes  
One more time you oughta realize

That, I'm the one who loves you  
Yeah I'm the one who loves you  
Who loves you  
I'm the one who loves you  
I'm the one who loves you

It's not your fault no you're not to blame  
You got caught up in those vicious games  
I'm never gonna let you go back

Never never again, and that's a fact  
I've gotta stop you from feeling so blue  
I'm gonna tell you what my heart wants me to

That I'm the one who loves you  
I'm the one who loves you  
loves you  
I'm the one who loves you  
I'm the one who loves you  
I love you

Oh sweet darling now don't be blue  
Another guy has gone and left you  
Come back to me, I'm your best friend  
To tell another tragic story again  
One more time you look into my eyes  
One more time you gonna realize  
That I'm the one who loves you  
I'm the one who loves you

I'm the one who loves you  
Who loves you  
You know I love you  
You know I love you baby  
I'm the one who loves you  
I love you baby  
I'm the one who loves you
