

You Took My Love

John Farnham

You know that I would follow you to the ends of the earth
And maybe I was gullible,
you should of known my worth
I was waiting for the right time to remind you
that we were in love
What I gave was so incredible, but it was never enough

You took my love and broke my heart
You took my smile then you tore it apart
You left me crying down on the floor
The funny thing is that I still want more
If only you loved me like I wanted you to
But you tricked me into loving you
You took my love, you took my love

You know you charmed me with your little ways,
you knew which buttons to press
And you said I was your everything
but you just couldn't care less
You said we'd be together forever,
Now look what you've done
What I gave was so incredible
but it was never enough

You took my love and broke my heart
You took my smile then you tore it apart
You left me crying down on the floor
The funny thing is that I still want more
If only you loved me like I wanted you to
But you tricked me into loving you
You took my love, you took my love

All that I needed was someone to hold me
All that I wanted was someone to show me
just was it is to be loved
and I thought that someone was you

You took my love and broke my heart
You took my smile then you tore it apart
You left me crying down on the floor
The funny thing is that I still want more
If only you loved me like I wanted you to
But you tricked me into loving you
You took my love, you took my love
