

Fusion/Fission

John Foxx

I open my eyes
I'm lost for a moment
Wonder of leaving
Light on your face
I'm glancing below us
Rhythm and dreaming
Bright and bewildered
Walk in with the new day
Fusion/Fission
Fusion/Fission
I open my heart
I'm lost for a moment
Vanish with someone
Turning to say:
"Oh these are the days now
When seasons will change us."
I feel you unfolding
So glad in this blaze
Fusion/Fission
