Far Away

John Frusciante

Oooo Away, ahh Oooo Away, ahh I can't disquise the things I do And things i say have a way of hurting you I'm over there These dreams are all i have left I've nothing to spare They're all I have Oooo Away, ahh Oooo Away, ahh I can't pretend to be who i'm not And there are things you need from me I haven't got No way but to end Pick up the pieces of our lives And maybe love again There's only one way for things to be Between you and me There's only one way for things to be Between you and me There's only one way for things to be Between you and me There's only one way for things to be Between you and me
