

## (Good Old Electric) Washing Machine [Circa 1943]

John Hartford

Well, I sure do miss that good old electric washing machine  
The one that we ain't got round here no more  
And I sure do miss that big round tub and them stomping swingin  
g sounds  
And I miss them groovy puddles on the floor

Cause the new one just goes  
Mmm...  
But the old one went...

Well, I cry when I see that brand new automatic washing machine  
Cause I'm sentimental for that old machine still yet  
Cause that old one really looked like a rel live washing machin  
e  
But the new one just looks more like a television set

Cause the new one just goes  
Mmm...  
But the old one went...
