

Long Time Comin'

John Hiatt

A friend of mine said: A long time comin'!
Been a long time goin'
Studding right here whisper in my ear
All the love go wrong
I've been living my life like a ..in the wind
And I can't out this blame
A friend of mine said: A long time comin'!
Coming back again
All this time we've been turning, turning like a screw
Dancing on roads of silver and gold
But I could never find you
I've been living my life like a long so whistle blowing but I c
an't turn back
A friend of mine said: A long time comin'!
Coming down the track
And now I told the truth
All these memories of you
Was wide
A friend of mine said: A long time comin'!
Coming back again,
I've sing this sing a thousand time
Ever since I was young
It's a long coming and a drunk keeps drunk
No what a kid be never be
I still see you there in that silver blue dress like I never ha
d moved on
A friend of mine said: A long time comin'!
I'm just a long time gone
A friend of mine said: A long time comin'!
I'm a long time gone
