

## My Best Girl Medley

John Holt

I'm gonna tell my friends about you  
Tell that about the the things that you do to me  
Tell them you're my best girl be, and the best you'll  
always be  
Tell them you're everything that's good, so good, to me

I want to be always close to you  
To give a helping hand if ever you're in need  
I want to be always so close to you

Don't have to try you out for size  
You fit my heart, comfortable and warm  
The only one I had no doubts, no fear about  
Without you, what would life be?

I want to be always close to you  
To give a helping hand if ever you're in need  
I want to be always so close to you

Don't have to try you out for size  
You fit my heart, comfortable and warm  
The only one I had no doubts, no fear about  
Tell them you're my best girl be, and the best you'll  
always be  
Tell them you're my best girl be, and the best you'll  
always be  
Tell them you're my best girl be, and the best you'll  
always be
