

Time Is the Master

John Holt

Time is a-going, why not make yourself a plan And try to be someone
Hold up your head so eyes can see you're trying, son

Time is the master But time can be disaster, if you don't care
You, young and gay You, old and grey Time is the master But time
can be disaster, if you don't care

Time, time, time, time Time, time, time, time Time is the master
But time can be disaster, if you don't care Time, time, time,
time Time is the master But time can be disaster, if you don't
care, oh,oh

(..)

Time is the master But time can be disaster, if you don't care
You, young and gay You, old and grey Time is the master But time
can be disaster, if you don't care

Time, time, time, time Time, time, time, time Time is the master
But time can be disaster, if you don't care, whoa, oh Time, time,
time Time, time, time, time Time is the master But time
can be disaster, if you don't care
