

# I'll Know Tonight

John Lee Hooker

Come on, let's make love tonight  
Come on, please, let's make love tonight  
When we get together, baby  
Everything gonna be alright

I say let me hold your hand tonight  
Oh, baby, hold your hand tonight  
I'll do things to you, baby  
Make you happy everyday

Here I am on this curve again

Here I am all in love again  
When I look for you, baby  
I ain't got to know a thing

I say let's make love tonight  
Oh, yeah, let's make love tonight  
When we get together, baby  
Everything, everything, everything gonna be alright
