

I'm a Stranger

John Lee Hooker

I'm a stranger, babe
I just got in your town
I'm a stranger, babe
I just got in your town

Don't drive me from you door, baby
'Cause I don't know nobody 'round

It's cold outside, baby
I don't have no place to go
It's cold outside, babe
Have no place to go

Take me in, take me in, baby

Let me stay all night with you

I'm a stranger, baby
And I just got off the train
I'm a stranger, baby
I just got off the train

I don't know nobody in this town, baby
Honey child, please take me in

The rain keep fallin', baby
And my clothes gettin' mighty wet
