

## Too Young

John Lee Hooker

People said, we're too young to fall in love  
She's 16, I'm 17, say we don't know what we're doing  
She loves me, I love her. That all matter, with me  
But I light up like a stars from heaven, when we look at each other  
But still people said, we're too young to fall in love

Everybody talkin', but they don't know how deep our love  
But if she can cook, she's a young girl, that's all I need  
Now you know, our love, would be so young and go so deep  
Now people don't know, but we know  
She's 16, I'm 17, we know, we know how deep our love

People talkin', talkin' all, all over town  
Sayin', we're too young to fall in love, fall in love, fall in love
