

Dope

John Legend

She's soooooo dope

She roll up it, it's automatic
My mood is on ecstatic
She's lightning straight to the vein, yep
She beautiful, she magic
She chemical reactive
I'm burnin' out in her flame

Late nights, low lights (Late nights, low lights)
Oh my, I'm 'bout to die (Oh my)
Roller, Coaster (Roller, coaster)
And I want that ride (I want)

She's soooooo dope
Wanna be her dope fiend
She showed me what dope mean
She's soooooo dope
She can be my dope queen
We could make a dope scene, yeah

She's soooooooooo dope
Give it, give it, give it to me
Give it, give it, give it, give it to me
She's soooooooooo dope
Give it, give it, give it to me (Hella, hella, hella, hella)
Give it, give it, give it, give it to me (Look, look)

Uh, hella glam on the 'gram, let me see you in person
Can you take away the pain like a pill or a Perc 10?
Pertinent information, read first before taking
The potent medication prescribed by the prettiest of ladies
You give me lows and highs but you killin' me baby
You know I'm crazy, I ain't had no edumacation
And at the day's end I'm still chasin' and racin'
To get that first taste again, it was amazin'
And now I fiend for foreplay, sexual relation
She know the pussy bomb, C4, get to the station
On the intercom, tell everybody I'm somewhere naked
Sweaty, stanky, shakin', take me into outpatient
Because the way I'm trippin' out is kinda outrageous
I need it now, baby
'Cause I'm addicted to your smile like a flower that grows
In the wild in Colombia that paid Pablo

She's soooooo dope (Yeah, y'all know)
Wanna be her dope fiend
She showed me what dope mean
She's soooooo dope
She can be my dope queen
We could make a dope scene, yeah

She's soooooooooo dope
Give it, give it, give it to me
Give it, give it, give it, give it to me
She's soooooooooo dope
Give it, give it, give it to me

Give it, give it, give it, give it to me

She roll up, it's automatic

Yep, yep

She roll up, it's automatic

Yep, yep

She roll up, it's automatic
