

## Focused

John Legend

Oh, you know I gotta lotta food for thought on my plate  
You won't believe all of the people tryin' to get in my face  
Not to mention all the ladies trying to take your place  
But you know that my attention never drifted away

'Cause I'm focused  
Yeah, I'm focused on you

Wooo  
I'm focused  
Yeah, yeah, I'm focused on you

Hey, everybody has their days when the work feels like chains  
When you're tryna shake it up and it still looks the same  
Oh, but I know I'm coming home to you, so I can't complain, no,  
no  
When I walk through the door, all the world melts away

And I just focus, mmm  
I focus on you

Woo, hoo  
I just focus  
I focus on you

Yeah  
When the world gets heavy  
When the days are long  
Oh, you keep me steady  
And you make me strong

When the train is speedin'  
I keep holding on  
I won't let it shake me  
I won't let it break me, no, no

I'm just focused  
Yeah, I'm focused on you

I just focus  
I focus on you
